OBJECTIVE

I desire a career, which is always upward looking with the ample opportunities for growth. I seek to join the organization which can enhance my skills and develop my personality, while providing me the wide-ranging exposure and sufficient responsibilities.

WORK EXPERIENCE

Devflip Company (EightShperes Technology)[6 Months]
Freelancing as React and Next Js Developer

- Developed projects in React as well Next JS technology.
- React Project was to develop Student attendance system dashboard with integration of scanning QR codes and make required updates.
- Next Project was to develop the company's main website
  https://devflipweb.devflipstag.info/

Sumay Infotech (KCG Campus Ahmedabad) [1 Month]
Frontend React Developer

- I played frontend role in developing a website for a client similar to Cashify in React technology.

ISKCON, Kathwada [Diploma Project]
Marketing Manager & Specialist

- I played lead role as front end developer in developing the website.
- The website provides information about the temple, various events organized, daily darshan feature to name a few. It also enables users to make donation to the temple for various activities.
  https://gpa.iskconkathwada.org/

Website of Ayurved Drugs Description
Frontend Developer

- A detailed informative website in react about Ayurvedic Drugs provided with some of the important details required for last minute study for BAMS students.
